Why Choose North Ridge Payday Cash

That alternative to the old payday loan that you've been waiting for

At North Ridge Payday Cash, we know how important flexibility is to financial success. We take into consideration all the relevant details of your financial situation to ensure whichever of our repayment plans you choose, we can keep your rate as low as possible. Whether you're borrowing \$100 or \$1500, repaying in a single payment or 2 or 3 installments, our advanced algorithm is working out the best rate for your situation.

If you're worried that your credit score may prevent you from having access to our great short-term loans, don't tie yourself in knots over that. A credit score is a result of what happened back some time in the past. This is now and if you can repay a loan today why shouldn't you have the opportunity to deal with the unexpected financial challenges that we all have to cope with from time to time? That's why we look at the big picture of your financial situation.

We know that things happen in life and sometimes you need extra money for unexpected expenses. If you need the car or computer repaired, emergency dental work or last-minute tuition fees, what do you do? Borrow from family? That can be complicated. Apply for a line of credit? But that can take too long. You need a solution now. A post-dated check? That can be tricky. How about a cleaner, faster, easier solution than any of those options? Our payday loans can do the trick. Check out our cash advance or more flexible payment plan. Either is an affordable solution, that's quick and easy, when the unexpected expenses arise.

Plus, we use the industry's state-of-the-art encryption technology to ensure that your personal application information is rock solid safe. Also, the application is as simple as can be. The days of standing in line at some storefront location, with all your documents piled in your lap, waiting for your number to be called, are over at Kwarta Loans. Ours is a completely streamlined, easy to use, secure, online process. The whole thing can be done from the comfort of your couch, all in one day. Once approved, and you sign the electronic contract, your funds are just 5 minutes away from being in your bank account.
