Why partner with us?

SwiftIT has a successful track record of protecting several residential and commercial premises with top-notch CCTV surveillance solutions. Some of the potential benefits of partnering with a reputed company such as ours are:

- Systematic and scheduled maintenance
- Remote support capability
- Guaranteed emergency response

Maintenance Services

Dubai is a top-ranked business hub not only in the United Arab Emirates (UAE) but also in the entire world. Whether you wish to upgrade your home or office security, you can hire CCTV surveillance and maintenance services from SwiftIT – a leading CCTV maintenance company in Abu Dhabi and Dubai.

Best-Quality Surveillance Systems

- High-definition resolution
- Analog & IP camera solutions
- Infrared election
- Night vision technology
- Motion-activated sound & light deterrence
- Off-site control & monitoring

Swift IT security camera solutions

- Our company has been providing top-tier security solutions for many homes, offices, businesses and commercial spaces for years, a mission that we still strongly hold on to even to this day.
- By developing a clear understanding of your needs and concerns, we implement a personalised approach to adopt our solutions for optimal protection of your family and business assets.

The CCTV camera installation process depends on the type:

- Mounting the camera
- Placing the DVR
- Connecting and organizing cables
- Setting the display unit
- Operating the computer
