ABOUT US

Digital revolution across the globe over the last few decades had transformed and re-shaped the operation models of businesses. The rise of internet and advancements in digital technologies has revolutionized e-commerce leading to a transformation of how we connect and conduct business. Geographical barriers have disappeared making it easy for business to reach a Global audience. The thought of exponential growth of e-commerce and social media influencing, gave us the idea to develop this online portal "NAVIGATORS R US" for subscribers to market their products quickly and conveniently. Our goal is to enable connectivity between a seller and buyer at the click of button or touch of screen.
