

# Linkage IT Private Limited

Your Trusted IT Staffing & Consulting Partner

## About Us

LinkageIT® works closely with clients to understand their business needs and develop customized solutions that drive business success. As a full-service digital consultancy, we aim to offer a wide range of IT solutions, that include niche-skilled top-tier IT staffing, custom software development, digital marketing, website design and development, data analytics, cloud computing, and CRM services. Our dedicated team is committed to helping businesses transform and thrive in the digital age. Whether the aim is to automate the organization processes, build a product development team on demand, or foster innovation, we have the expertise and experience to help you achieve your goals.

# Services

# IT Staff Augmentation

LinkageIT® offers "ProTeamMate", an online platform where companies can access the top 3% of pre-vetted IT talent, complete with professional qualifications, experience, and technical feedback. Customers can initiate hiring requests online and deploy resources almost immediately. Our goal is to transform the way people work by bringing the future of technology to any software development company.
